

## TRAINING SEMINAR FOR SCHOOL BOARD MEMBERS

In order to be effective reformers in their school districts, school board members must have the best information about policy options, strategies, and what works. The Pacific Research Institute will be hosting a school board training session on Friday, May 29, 2009 at the California State Capitol, Room 113.

The seminar will address critical topics such as improving student behavior, the business community's views on education reform, and school policy regarding student medical information, and an exciting new tool on school finance and school performance.

Cost: No Cost for School Board Members
