## Department of Public Health

# City and County of San Francisco

Gavin Newsom, Mayor

Gregg Sass, **Chief Financial Officer** 

## MEMORANDUM

November 18, 2008

TO:

President Jim Illig

and Honorable Members of the Health Commission

THROUGH: Mitchell Katz, M.D.

Director, Department of Public Health

FROM:

Gregg Sass

Chief Financial Officer

RE:

Revenue and Expenditure Report – 1st Quarter FY 2008-09

This report presents the first quarter financial projections of revenues and expenditures for the Department of Public Health for fiscal year 2008-09. These projections are based on revenue collected and billed, and expenses incurred for the first three months of the fiscal year ending September 30, 2008. Projections include a revenue deficit of \$3.359 million and expenditure deficit of \$0.519 million for an overall deficit of \$3.878 million. Financial projections include additional revenues and cost savings as detailed in a balancing plan accompanying this report. The balancing plan addresses an overall \$25 million current year shortfall that relies in part on accessing a \$4.6 million surplus for the previous fiscal year that was only recently identified. If approved, that prior year surplus would balance the current year projected deficit. If not approved, we will continue to work to fully fund our operating expenses and eliminate the net deficit.

The following table summarizes projected financial results for the year based on first quarter results:

Projected FY 2008-09 Year-End Surplus/Deficit

			REVENUES		EXPENDITURES							TOTAL
		Revised	Current	 Surplus/		Revised		Current		Surplus/		Surplus/
Division		Budget	Projection	(Deficit)		Budget		Projection		(Deficit)		(Deficit)

The Revised Budget in the table above includes: Annual Appropriation Ordinance for DPH, carry forwards from prior year, Inter Governmental Transfer (IGT), Transfer In and Project Related expenses.

San Francisco General Hospital: Year-end projections show a surplus of \$1.585 million.

Revenues are projected to be \$9.172 over budget. This is comprised of a \$10.293 million favorable variance in net patient service revenue (\$17.050 surplus in patient service revenue reduced by \$6.757 shortfall in the Safety Net Care Pool). This includes additional projected revenue consistent with our final close out for 2007-08. We are also projecting a 100% loss of State Tobacco Tax revenues that were budgeted at \$1.121 million but cut from the State Budget.

The average daily census in the acute medical / surgical units at SFGH through October of this year exceeds the budgeted census by 6.75%. This has also been considered in the revenue projections.

Expenditures are projected to be over budget by \$7.587 million. This is due to unfavorable variances in Personal Services and Fringe Benefits. This projection is based on our most recent analysis of personnel expenditures reduced by \$3.471 million for the effect of holding unfilled requisitions consistent with the Department's balancing plan.

The unfavorable variance in our salary projections are partly a result of under-funding of structural costs. The final approved budget did not include \$3.8 million in requested funding for structural needs that occurred in 2007-08.

Laguna Honda Hospital: Year-end projections show a deficit of \$9.027 million.

Revenues are projected to be \$7.681 million less than budget. This is associated with State budget reductions to Medi-Cal skilled nursing per diem rates. The Medi-Cal cut is the subject of a lawsuit that the City Attorney advised will not be settled until very late in the fiscal year. The outcome of the lawsuit is not assured.

Expenditures are projected to be \$1.346 million more than budget due to unfavorable variances in Personal Services. This projection is based on our most recent analysis of personnel expenditures reduced by \$2.314 million for the effect of holding unfilled requisitions consistent with the Department's balancing plan.

The unfavorable variance in our salary projections are partly a result of under-funding of structural costs. The final approved budget did not include \$2.336 million in requested funding for structural needs that occurred in 2007- 08.

Primary Care: Year-end projections project a surplus of \$1.181 million.

Revenue is projected to \$0.8 million under budget. The budget included projected \$0.8 million in FQHC funding for primary care services provided for clients in respite beds, but we have not as yet been able to secure that funding.

Expenditures for Salaries and Fringe Benefits are projected to be 1.981 less than budget, based on a projection of our most recent year-to-date payroll.

Jim Illig and members of the Health Commission November 18, 2008 Page 3

Health at Home: Year-end projections show a surplus of \$0.521 million comprised of favorable variances in Salaries and Benefits. In a first round of mid year cuts taken in August, the Mayor reserved \$0.300 million personnel expenditures which accounts for most of this variance. In addition, projections are reduced by \$0.178 million for the effect of holding unfilled requisitions consistent with the Department's balancing plan.

Jail Health Services: Year-end projections show a surplus of \$0.489 million comprised of favorable variances in Salaries and Fringe Benefits reduced by \$89,000 for the effect of holding unfilled requisitions consistent with the Department's balancing plan

Public Health: We are projecting a \$2.827 million surplus in this division.

Revenues are less than budget by \$1.050 million to adjust for State budget cuts to CCS revenues that are offset by equivalent expenditure savings.

Expenditures are projected to be \$3.877 million less than budgeted. Salary and fringe benefits are \$2.277 million under budget reflecting savings of \$1.227 million from holding unfilled requisitions consistent with the Department's balancing plan and reductions in staff in Maternal Child Health equal to the \$1.050 million reduction in State CCS funding. Savings in Non-Personal Services of \$1.6 million reflects deferral of \$1.5 million in HUH scattered site housing costs to 2009/10 and \$100,000 savings for a reduction to the Bayview Health Initiative taken in a first round of mid year cuts. This cut reversed a portion of the addback restored by the Board of Supervisors.

#### Mental Health:

We are projecting a \$2.062 million deficit in Mental Health.

Revenues are projected to be \$3.0 million under budget for Short-Doyle Medi-Cal, consistent with prior year results.

Expenditures are projected to be \$938,000 under budget. Salary and fringe is \$341,000 under budget due to a \$1.0 million salary deficit offset by savings of \$1.341 million from holding unfilled requisitions consistent with the Department's balancing plan.

The unfavorable variance in salary projections is primarily due to under-funding of structural costs. The final approved budget did not include \$2.8 million in requested funding for salary and fringe.

Non-Personal Services is \$597,000 under budget reflecting \$240,000 savings for late start up of an ADU included in the Department's balancing plan and \$357,000 savings for outreach services taken in a first round of mid year cuts. This cut reversed a portion of the addback restored by the Board of Supervisors.

#### **Substance Abuse:**

Expenditures are projected to be \$609,000 under budget related to savings in salaries and fringe of \$87,000 from holding unfilled requisitions consistent with the Department's balancing plan. In addition there is savings of \$522,000 in non-personal services for outreach services taken in a first round of mid year cuts. This cut reversed a portion of the addback restored by the Board of Supervisors.

Jim Illig and members of the Health Commission November 18, 2008 Page 4

Conclusion: With only three months of the fiscal year on which to base projections, and nine months remaining, it is difficult to project our year-end position with precision, however we can project a favorable revenue variance at SFGH to provide a funding source for a supplemental appropriation to fund a portion of the deficit at Laguna Honda. As described in our balancing plan, while the plan relies on access to \$4.6 million in 2007/08 surplus revenues to help balance overspending in 2008/09, we also have additional time to find other solutions. The plan is under review by the Mayor's Budget Office and Controller.

Gavin Newsom. Mayor

Gregg Sass. Chief Financial Officer

## MEMORANDUM

November 3, 2008

To:

Nani Coloretti

From:

Gregg Sass

Subject: Current year balancing plan

As requested we are submitting our plan to balance current year spending to budget.

### Background

State budget cuts reduce projected revenues \$9.7M. As instructed, we did not forecast the majority of these cuts, and are projecting that State cuts will reduce Budgeted \$7.9M (\$2M was of losses were anticipated in our budget. We are also projecting an additional \$2.7M shortfall in revenue related to the accelerated pace of bed closures and reversal of growth assumptions in our projected Medi-Cal rates. The total revenue loss is projected to be \$10.6M.

Our most recent payroll projections indicate that salary expenses will exceed budget at SFGH and LHH. The variances at our hospitals are related to structural budget items that existed in the 2007/08 year, and required supplemental appropriations. Funding for these costs were requested in 2008/09 but were not included in the approved budget. We are therefore projected to be overspent \$14.1M.

The combined effect of revenue shortfalls and personnel cost overspending is \$24.7 M.

#### **Balancing Plan**

There are five components to our balancing plan.

#### 2007/08 General Fund Surplus \$4.6M

The first is to access General Fund surplus from the prior year to the extent that it exceeded our projections for 2007/08 and is therefore providing a \$4.6M in additional General Fund that was not factored into the City-wide deficit projections. The Health Department projected that we would return \$4.9M. Final entries by the Controller returns \$9.5M for a net difference of \$4.6M. We request that this additional contribution be applied to offset revenue shortfalls this year.

#### Additional revenue forecast at SFGH \$9.0M

The second component is an additional \$9.0M in revenues at SFGH above what is budgeted for this year. We have reviewed our year end revenue close out last year and determined that actual revenues at SFGH for the 2007/08 year exceed our budgeted revenues for 2008/09 such that we can project a revenue increase for this year.

## One-time savings from delayed spending on budget initiatives \$1.74M

The third component is comprised of several budget initiatives where spending will be deferred and budget savings will result. Our budget includes \$2M in a continuing project account for rent subsidies for Nani Coleretti November 3, 2008 Page 2

scattered site housing. We project that no more than \$0.5M will be expended in this fiscal year and \$1.5M will carryforward in the continuing project to next year which will reduce the need for additional funding related to the Chambers settlement. Our budget also includes \$1.6M for a community based adult diversion unit that will not open before January, and will result in contract savings of \$240K this year.

## CCS Staff Reduction

In response to the loss of \$1.2M in State funding for California Children's Service (CCS), we are eliminating 20 positions in that program for a six month savings of \$1.2M. The revenue has been reflected in reduced revenues in this analysis and this reduction offsets that loss. This will also produce over \$2M in savings for 2009-10.

## Salary Spending Plan

As of the current date, there are 158 requisitions that remain unapproved from lists submitted in August and October. These are generally M-F positions that have been recently vacated. Each has been reviewed and approved by DPH finance and budget staff.

While holding these positions is useful in offsetting overspending at our hospitals, there are some that are critical to continuing operations and must be filled.

In order to reduce spending and bring our personnel costs into balance, we propose to defer 75% of existing vacant requisitions. To the extent that the positions were recently filled, deferring hiring will have a direct positive effect in reducing personnel cost in the current year. In addition, we estimate that approximately 15 terminations in M-F positions occur each month and we also are willing to hold 75% of new vacancies to further reduce our expenses. This will generate estimated personnel cost savings of \$8.9M computed as follows:

Total submitted and pending approval	158
Grant funded that should be approved immediately	 3
Remaining vacant M-F positions	155
25% to be prioritied for release	 39
Positions to be held through June 30	 116
Estimated Savings at \$80K per position for 8 months	\$ 6,186,667
Additional Savings of 12 positions per month for 7 months	\$ 2,700,000
Total Reduced Personnel Cost	\$ 8,886,667

#### Conclusion

If approved, this plan will eliminate the projected deficit of \$24.7M for 2008/09 as follows:

Nani Coleretti November 3, 2008 Page 3

,	Revenue	Expense	Deficit
Projected deficit	\$ (10.60) \$	(14.10)	\$ (24.70)
2007/08 surplus	4.60		4.60
Additional SFGH Revenue	9.00		9.00
Deferral of initiatives		1.74	1.74
CCS staff reduction		1.20	1.20
Salary Spending Plan	 	8.90	8.90
Projected Deficit	\$ 3.00	(2.26)	\$ 0.74
